

STOP!

Important Notices for Check 21+ Check Processing

You **MUST** verify your terminal is programmed with the correct account number to ensure you **receive your funds!**

Complete the following procedure after the terminal has been programmed with the Check Processing service:

1. Use the enclosed "Test Check" to run a transaction for \$1.00
2. A receipt for the transaction will print.
3. Fax this receipt to **850-337-9541** to verify correct programming.

This procedure ensures that your Check Processing service has been correctly installed on your terminal.

Failure to complete this verification will prevent your business from receiving funds from processed checks.

Reminder when processing:

You **MUST** retain customer's check in a secure location for 90 days before destroying.
